Update the banner*

MARK AS COMPLETE

Instructions

Now that you know about Timers, you can update the advertisement banner to **display after 5 seconds**.

The banner should display while the user scrolls down the page and should include a button in the top-right corner of the banner that closes the banner when clicked.

The button in the top-right corner should close the advertisement banner when a user clicks it.

The banner can display any information that you want. Some users decide to include a link to the Request page, others display an ad from another company
